No. 91Marine.—In exercise of the powers conferred by section 10 of the Indian Merchant Shipping Act, 1859 (I of 1859), the Governor in Council, with the previous sanction of the Governor-General in Council, is pleased to make the following amendments to the rules for the conduct of examinations for Masters and Mates of Foreign-going and Home Trade ships and as to the qualifications to be required, published under the notification of this Department No. 113Marine, dated the 14th November 1910, as amended by Notifications Nos. 21 and 140Marine, dated, respectively, the 10th February and 20th November 1914 :—

1. Paragraph 14 *add* the following :—

"A candidate who has passed the Dictation Test on his first examination, and subsequently fails in Navigation, need not undergo the Dictation Test at his re-examination at the same port at the one or two subsequent attempts to which he is entitled, and for which he may present himself within the period of three months (paragraph 16)."

2. Paragraph 25 (*1*), the following names should be added to the list of approved bodies whose certificates may be accepted :—

"the Leith Nautical College,"

"the British Red Cross Society,"

"the Glamorgan County Council."

3. Paragraph 40 (*2*) *add* the following :—

"The words junior bridge-keeping officer" in the above Regulations must be interpreted as meaning the junior of *two* bridge-keeping officers. Where three officers are on the bridge together, the service of the third does not fall within the scope of these special Regulations, and his service cannot be accepted as qualifying. All cases where cadets, to whom these special Regulations apply, subsequently present themselves for examination for First Mate or Master must be referred to the Local Government, so that their real position on board vessels of the Company satisfying the requirements of paragraph 40 may be verified by reference to the official logs before they are accepted as eligible for examination."

4. Paragraph 58, line 2, *delete* the words "and spell correctly."

5. Paragraph 126 *substitute* the following :—

"126. (*1*) Time served on board a training ship will be allowed to count as equivalent to one-half the same time spent in service at sea, up to a limit of two years (*i.e.*, no length of service will be allowed to count as more than one year at sea), provided that the candidate can produce a certificate from the Committee or Captain Superintendent that he has conducted himself creditably and passed a good examination in seamanship so far as it is practised in the training ship, as well as in other matters, down to the time of his leaving the ship. Training ship service will not be regarded as equivalent to service in square-rigged vessels."

(*2*) Time spent at a school for Nautical Training conducted on premises ashore may be allowed to count in some proportion, not exceeding one-half, as service at sea, provided that—

(*a*) the school is in receipt of a grant from the Board of Education under the Regulations for Schools of Nautical Training;

(*b*) after an inspection by one of their officers the Board of Trade are satisfied that the school gives a training that justifies time spent there being reckoned as part of the necessary qualifying time for a certificate of competency;

(3) the candidate produces a satisfactory certificate as regards conduct and proficiency from the authorities of the school on leaving it.

The proportion in which time spent at a school conducted on premises ashore will be accepted as qualifying under the above provisions will be decided after inspection by one of the Board's officers, but time spent at the school will never be counted as equivalent to more than one-half of the same time spent at sea, nor will it in any circumstances be taken as equivalent to more than one year at sea."

6. Appendix B *substitute* the following:—

TEMPORARY MODIFICATIONS IN THE REGULATIONS APPLYING ONLY DURING THE WAR.

Service under the Admiralty.—All service afloat during the war in His Majesty's ships or in auxiliary supply ships or any other ships in attendance on the Fleet will be accepted in full (subject to the ordinary conditions as laid down in the Government's regulations) as qualifying sea service for the purpose of the Government's examination of Masters and Mates.

The Government cannot undertake to accept the whole or any definite proportion of service in the Royal Naval Reserve, which is not qualifying service in accordance with the regulations, but they will be prepared to consider sympathetically an application for examination from a candidate who has been prevented by his service in the Royal Naval Reserve from complying fully with the Government's requirements. This may be taken as applying, *e.g.*, to service with a First or Second Mate's certificate but in a rank below that of Acting Sub-Lieutenant.

Service in the Royal Naval Reserve: Antedating Certificates.—The Government have considered the case of men serving in the Royal Naval Reserve during the war who are prevented by the exigencies of the service from presenting themselves for examination on completion of the period of qualifying service required by the Government's regulations. Arrangements have been made whereby if such a person passes the examination for a certificate of competency at a time not remote from the conclusion of hostilities, he may have his certificate antedated to the date on which the period of qualifying service was completed; and service performed after that date, if eligible, will be accepted as qualifying for a higher certificate. No certificate, however, will be antedated to a date prior to that on which the candidate was called out for Active Service.

Service in the Army.—The Government are anxious that, so far as it is reasonably possible, seamen or apprentices who are at the present time serving in the Army should not be hindered in their ordinary profession, but the Government cannot, in the absence of any indication of the probable duration of the war, give a definite undertaking with regard to the extent to which such service could be accepted as part of the service required to qualify for certificate of competency in the Mercantile Marine. The Government must have regard to the essential condition that their certificates must testify to actual competency, but they will be prepared in due course to consider sympathetically any application to be examined by a candidate who has been prevented from complying fully with the rules owing to his service in the Army.

Service under an Auxiliary First Mate.—With reference to paragraph 37(*c*) of the regulations relating to the Examinations of Masters and Mates the Government have decided to accept service as Second Mate while holding a First Mate's foreign-going certificate and performed during the war under an additional or auxiliary First Mate as qualifying service for a Master's certificate, provided that a Third Mate is also carried, and the requirement that there shall be a Fourth Mate will, for the time being, not be insisted upon.

First Aid Certificates.—A First Aid Certificate, which, though otherwise valid, is more than three years old, will be accepted during the war if the holder has been prevented from renewing it by reason of the exigencies of the war service.

Examination of Enemy Aliens.—So long as the war lasts, no subject of an Enemy State will be allowed to present himself for examination for a certificate of competency in the Mercantile Marine.

No. 92Marine.—In exercise of the power conferred by section 36 of the Indian Steam-ships Act, 1884, the Governor in Council proposes to make the following amendments in the rules to regulate the granting of certificates of competency to Engineers of sea-going steamships which were published under the notification of this Department No. 172Marine, dated the 30th December 1913.

The draft amendments will be taken into consideration after the expiry of a month from the date of their publication in the Gazette, and the Governor in Council will be pleased to consider any suggestions or observations which may be made concerning them within that period.

C. P. WALSH,
Offg. Secy. to the Govt. of Bengal.

DRAFT AMENDMENTS TO THE REGULATIONS RELATING TO THE EXAMINATIONS OF ENGINEERS.

Paragraph 19.—Add the following:—

Failure in a number of elementary questions involving fundamental principles, or in questions ignorance of which might lead an Engineer to do something actually unsafe in the management of any part of a ship's machinery, will be regarded as failure in practical knowledge.

Paragraph 28.—Add the following:—

Each candidate who claims remission of sea service on account of attendance at a recognized Marine Technical School must produce his class note-books when he makes application to be examined.

These books will be forwarded to the Examiner, in order that he may satisfy himself that the candidate has followed the approved course of instruction, and that the remission of sea service claimed may be allowed accordingly.

Application for examination of candidates claiming remission of sea service should, as a rule, be made at least a week before they desire to sit.

A list of the Marine Technical Schools recognised for this purpose is given in Appendix J.

Paragraph 31.—Add the following:—

This paragraph applies only to works at which the making and of repairing of steam-engines, boilers, etc., forms part of the regular business for which the works exist. Service at works where the repairing of steam-engines, boilers, etc., is merely incidental to the running of plant, however large, which is used for the production of power for other machinery, etc., should be dealt with under paragraph 33, each case being considered on its merits.

Insert after paragraph 33—

Service in Colonial and Foreign Workshops.—Paragraphs 31 to 33 apply to service in the United Kingdom and India only. Service in a Colonial or foreign workshop will not be accepted unless the Examiner is satisfied in each case that its value is substantially equivalent to that of service in the United Kingdon and India. In cases where the Examiner is not satisfied that the value is equivalent, he will refer the matter for decision.

Workshop service in India is to be taken as equivalent to not more than four-fifths of the same period of service in the United Kingdom.

Paragraph 34.—Add the following:—

Time spent in attending evening classes in Engineering at approved Technical Schools will similarly be allowed to count under the following conditions:—

(1) Each candidate claiming an allowance for time spent in attending evening classes at a Technical School must produce a certificate signed by the Principal of the School to the effect that he has attended regularly at a definite class or classes, which should be specified, and has made satisfactory progress. This certificate must also state the total number of hours spent by the candidate in attending each class.

(2) Time spent by the candidate in attending such classes as have a direct bearing on the training of a Marine Engineer will be reckoned at the rate of five hours to one day. The total number of days so obtained will then be accepted in lieu of a certain fraction of the same period of workshop service. This fraction will be fixed for each school at the time of approval and will generally be two-thirds.

(3) A candidate who has attended a Technical School in the evening, while being employed as an apprentice or journeyman Engineer during the day, must, in order that the school time may be accepted, produce satisfactory proof that he has spent the full working day in the works, at which he is employed, before attending the school. Such proof will usually take the form of a statement in the testimonial as to workshop service given by the employer.

(4) Allowance will only be given for classes attended after the candidate has reached the age of 15.

Paragraph 44.—Add ths following :—

Where an Engineer is employed on a fishing or other vessel and is required to do stoking or other work not usually performed by an Engineer in the Mercantile Marine, such service cannot be accepted as qualifying.

The Examiners of Engineers will in all cases satisfy themselves that service on fishing boats, when claimed as qualifying for a certificate as Engineer, is of a similar nature to that performed by Engineers in the Mercantile Marine.

Paragraph 48.—Add the following :—

It is not necessary for applications of Chief Engine-room Artificers and Mechanicians, who have left the Royal Navy and who desire to be examined for certificates of competency as Engineers in the Mercantile Marine, to be forwarded either through their Commanding Officers or through the Admiralty. Men who are still serving in these ratings in the Royal Navy should make their applications through their Commanding Officers.

Artificer Engineers, however, being Warrant Officers, should make their applications in the same manner as that laid down for other officers of the Royal Navy.

Appendix J.—Substitute the following :—

The following is a list of Technical Schools attendance at which is recognised by the Government as affording remission of some period of the service required to qualify a candidate for examination for a certificate of competency as Engineer.

(I) Day Classes.

When nothing is stated to the contrary, time spent in attending the day classes in Mechanical Engineering of a recognised Technical School is accepted as equivalent to artisan service at the ratio of three years of the former to two of the latter, provided the applicant was over 15 years of age and can produce the Principal's certificate for continuous and regular attendance at all the approved classes and for satisfactory progress. Such time cannot as a rule be accepted as equivalent to more than two years' artisan service.

TEMPORARY MODIFICATIONS IN THE REGULATIONS APPLYING ONLY DURING THE WAR.

Service under the Admiralty.—All service afloat during the war in His Majesty's ships or in auxiliary supply ships or any other ships in attendance on the Fleet will be accepted in full (subject to the ordinary conditions as laid down in the Government's Regulations) as qualifying sea service for the purpose of the Government's examination of Engineers.

The Government cannot undertake to accept the whole or any definite proportion of service in the Royal Naval Reserve, which is not qualifying service in accordance with the Regulations, but they will be prepared to consider sympathetically an application for examination from a candidate who has been prevented by his service in the Royal Naval Reserve from complying fully with the Government's requirements. This may be taken as applying, to service in the engine-room, during which a candidate for a First Class certificate was not the senior Engineer in charge of the whole watch on the main engines or boilers.

Service in the Royal Naval Reserve: Antedating Certificates.—Government has considered the case of men serving in the Royal Naval Reserve during the war who are prevented by the exigencies of the service from presenting themselves for examination on completion of the period of qualifying service required by the Government's Regulations. Arrangements have been made whereby if such a person passes the examination for a certificate of competency at a time not remote from the conclusion of hostilities, he may have his certificate antedated to the date on which the period of qualifying service was completed; and service performed after that date, if eligible, will be accepted as qualifying for a higher certificate. No certificate, however, will be antedated to a date prior to that on which the candidate was called out for Active Service.

Service in the Army.—The Government is anxious that, so far as it is reasonably possible, seamen or apprentices who are at the present time serving in the Army should not be hindered in their ordinary profession; but the Government cannot, in the absence of any indication of the probable duration of the war, give a definite undertaking with regard to the extent to which such service could be accepted as part of the service required to qualify for certificate of competency in the Merchantile Marine. The Government must have regard to the essential condition that their certificates must testify to actual competency, but they will be prepared in due course to consider sympathetically any application to be examined by a candidate who has been prevented from complying fully with the Regulations owing to his service in the Army.

This may be taken as applying to candidates for Engineers' certificates who were prevented, by serving with His Majesty's forces, from completing before January 1st, 1915, the twelve months' sea service required by the Regulations then in force. (See paragraph 25.)

First Aid Certificates.—A First Aid Certificate which, though otherwise valid, is more than three years old will be accepted during the war if the holder has been prevented from renewing it by reason of the exigencies of the war service.

Examination of Enemy Aliens.—So long as the war lasts no subject of an Enemy State will be allowed to present himself for examination for a certificate of competency in the Mercantile Marine.

5. (*1*) An Inspector may, as provided in section 5 of the Act, enter any enclosure, field or any other place, where horses are kept, for the purpose of ascertaining whether there is therein any horse which is diseased.

(6) If an Inspector has reason to believe that the owner or person in charge of the horses is absenting himself in order to evade the provisions of the Act, or these rules, or if he meets with resistance or obstruction in making the entry, he may nevertheless make such entry if he be accompanied by not less than two persons appointed in writing by the Magistrate.

6. (1) When an Inspector seizes a horse under section 6 of the Act, he shall isolate it in a suitable place for the purpose of examination for a period not exceeding four months, as may be deemed necessary.

If the owner or person in charge is absent at the time of seizure, the Inspector shall nail the said copy on a prominent place within or near the premises where the seizure took place.

8. (1) Any horse that has been in the same field, building or place, or in contact with a diseased horse, may, at the discretion of the Inspector, be seized and isolated for the purpose of observation by a Veterinary Practitioner and of test, should he deem it desirable.

(2) When a horse has been isolated under sub-rule (1), a report shall be forwarded by the Inspector to the Magistrate, to the Superintendent and to the nearest Veterinary Practitioner.

9. If any Inspector or Veterinary Practitioner has reason to believe that the provisions of the Act will not be properly carried out, such Inspector or Veterinary Practitioner may apply to the Magistrate for assistance.

10. A certificate of a Veterinary Practitioner under section 8 of the Act that any horse is diseased shall not be valid unless it is in the form of Schedule III hereto annexed, and has been countersigned by the Superintendent, Civil Veterinary Department, or by some officer deputed by him in that behalf.

11. If a Veterinary Practitioner certifies under section 8 of the Act that a horse is diseased, it shall be destroyed humanely in the presence of an Inspector. The responsibility and expense of burning or burying the carcasses of diseased horses in suitable places shall be borne by the Municipality when the outbreak occurs within the municipal area, and by the District Board when it occurs in the District Board area.

12. If any horse is certified under section 8 of the Act to be suffering from surra or lymphangitis epizootica, a Veterinary Practitioner may, with the consent of the owner, direct that such horse shall be medically treated in such a manner and at such a place as to ensure that no danger to any other horse is entailed:

Provided as follows:—

(2) in the event of the disease proving incurable, the horse shall, subject to the restriction imposed by the following rule, be humanely destroyed in the presence of an Inspector.

No horse, certified to be suffering from surra or lymphangitis epizootica, shall be destroyed until the existence of one of the said diseases has been confirmed by a bacteriological examination at the Bacteriological Laboratory of the Bengal Veterinary College at Belgachia.

13. When the carcass of a horse destroyed under the Act or the carcass of a horse that has died while detained under the Act, is buried, the grave shall not be less than six feet deep, and the skin of the carcass shall be slashed to prevent its being used. All earth contaminated with blood or any discharge from the carcass shall be thrown into the grave, and the carcass shall be covered with 20 lbs. of quicklime.

The work shall be carried out under the Inspector's supervision.

14. When a horse or carcass which is diseased or which is believed to be diseased is about to be removed to another place for examination, slaughter, cremation, burial, or any other lawful purpose, the owner or person in charge of the horse or carcass shall attach a suitable covering to its nostrils, and to any other part of the body from which infectious matter may escape, so as to minimize danger of spreading infection during removal.

15. (*1*) Whenever an Inspector issues a notice under section 9 of the Act, to the owner or person in charge, to have a building, shed, or other enclosed place, or open lines disinfected, such notice shall be in the form of Schedule IV hereto annexed, and the work of disinfection shall be carried out, within the time specified in such notice, in the following manner :—

(5) All dung, litter, straw, grass and hay that may have been in contact with the diseased horse and all refuse from cleansing shall be buried or burnt.

(6) Temporary stables of straw, grass, or similar materials shall be pulled down and burnt, the floor being treated as in clause (4).

(*2*) No stable, building, shed, other enclosed place or open lines shall be used again until it has been disinfected to the satisfaction of the Veterinary Inspector.

16. When any diseased horse has been kept or carried in any cart, carriage, railway truck, country boat or other conveyance of whatsoever nature, or has been used in drawing any carriage, cart, or other conveyance, the Inspector shall issue a notice to the owner or other person in charge of such conveyance, directing him to have the same disinfected, together with such fittings appertaining thereto as it may seem necessary to the said Inspector to disinfect. Such notice shall be in the form of Schedule V annexed to these rules, and the work of disinfection shall be carried out, within the time specified in the notice, in the following manner :—

(*i*) When any cart or railway truck has become infected, the woodwork of such cart or truck shall be thoroughly scraped, washed with soap and hot water containing 5 per cent. of crude carbolic acid or phenyle.

(*iii*) When a boat has become infected all removable woodwork, battens, etc., shall be removed and burnt, and all wooden fixtures and ironwork shall be washed down with water containing 5 per cent. carbolic acid or phenyle:

Provided that all stable gear which may have been connected in any way with a diseased horse during the time that it was kept or carried in any of the conveyances referred to in this rule, and all refuse derived from cleansing, and all dung, litter, straw, grass and hay similarly brought into contact with such horse during the same period, shall be dealt with as laid down in clauses (1) and (5) of the preceding rule.

Notwithstanding anything contained in rules 15 and 16, the Inspector may prescribe any method of disinfection which, in the special circumstances of the case, may seem to him to be necessary.

17. Every stable, shed, building, conveyance or boat which has been disinfected under rules 15 and 16 shall, after disinfection, be examined by an Inspector to see whether the work has been thoroughly carried out, and the owner or the person in charge of such stable, shed, building, conveyance or boat shall give him reasonable facilities for such examination. If he is not satisfied that the work of disinfection has been thoroughly done, the Inspector may pass such orders as he may consider necessary for the proper disinfection of such stable, shed, building, conveyance or boat, which orders shall be carried out without delay.

18. No owner or person in charge, having been served with a notice of seizure issued under rule 7 shall intentionally or negligently cause or permit any horse or horses mentioned in the said notice to be removed or used otherwise than in accordance with these rules.

19. Licenses under section 11 of the Act for the removal of horses shall be granted by the Inspector in the form contained in Schedule VI.

20. The actual expenses of detaining, isolating and testing a horse under the provisions of the Act or these rules may be recovered from the owner or the person in charge thereof by the Magistrate as if it were a fine.

21. Whoever refuses or neglects to comply with, or commits a breach of, any of these rules, may be punished with imprisonment for a term which may extend to one month, or with a fine which may extend to fifty rupees, or with both.

22. (*1*) Compensation may be given to the owner of a horse which is—

(1) clinically diseased;

(2) apparently healthy and shows no outward symptoms of the disease, but which has been in contact with a diseased horse and reacts under any recognized test and is thus proved to be diseased:

(*b*) in the opinion of a Veterinary Practitioner it was apparently free from the disease at the time when it came to be the property of its present owner;

(*c*) it is not the property of the Government, or of a District or Local Board or Municipality, or local authorities, or of an asylum for animals;

(*d*) the owner of the infected horse has exercised reasonable expedition in bringing the case to the notice of an Inspector;

(*e*) the owner has given all reasonable assistance to such Inspector and to the officers of the Veterinary Department in preventing the spread of infection;

5. The said consideration of Rs. 48,00,000 was part of a sum of Rs. 50,00,000 advanced to the applicant by the Government of India, the repayment whereof is secured by an indenture of mortgage, dated the 21st day of May 1908, made between the applicant of the one part and the said Secretary of State of the other part, whereby the said immoveable properties except as aforesaid (with other properties since sold) were transferred by the applicant to the said Secretary of State, subject to the said three annuities and subject to the proviso for redemption that, when the said sum of Rs. 50,00,000 and all interest thereon in the meantime at the rate of 4 per cent. per annum should, under the scheme or provision for redemption and in manner therein mentioned contained and provided, have been fully paid to the Government of India, the said Secretary of State would reconvey the said immoveable properties to the applicant.

8. The several incumbrances aforesaid are enumerated and described in the second schedule hereto, and in such schedule are also contained particulars of the name and address of each incumbrancer and a statement of the amount now due to each incumbrancer other than the said annuitants.

9. In addition to the incumbrances aforesaid the applicant is indebted to the several persons whose names and addresses are set forth in the third schedule in the sums set opposite their respective names in the said schedule, in which schedule is also specified the nature of the said debts, none of which are secured debts.

10. Save as specified in the second and third schedules hereto there are no incumbrances held by secured or unsecured creditors enforceable against the applicant or the said immoveable properties.

NOTIFICATION.

No. 2747Medl.—The 9th September 1916.—The following report is published for general information :—

J. DONALD,
Secy. to the Govt. of Bengal.

Dated Darjeeling, the 7th July 1916.

From—MAJOR CLAYTON LANE, M.D., I.M.S., Secretary and Superintendent of the Eden Sanitarium and Hospital, Darjeeling,

To—The Secretary to the Government of Bengal, Financial and Medical Departments, Calcutta.
(Through the Surgeon-General with the Government of Bengal, Calcutta.)

I HAVE the honour to submit the following report on the working of the Eden Sanitarium and Hospital for the year 1915. I was in charge of the institution from the 1st January to 31st December 1915.

2. The Sanitarium was opened on the 1st April and closed on the 10th November 1915.

3. The Hospital attached to the Sanitarium opened on the 17th March and closed on the 10th November 1915. It was occupied for 7 months and 25 days during the year 1915.

4. The following table shows the number of each class of patients and their relatives admitted into the Sanitarium and Hospital during the past six years :—

Admissions.	1910.	1911.	1912.	1913.	1914.	1915.

Third Class	136	119	178	177	144	167

5. The following tables show the number of patients and their relatives and friends admitted during the last six years together with the daily average sick :—

Total ...	566	531	675	672	606	607

The following table shows the different sexes of the patients with the result after treatment :—

Males.	Females.	CHILDREN.		Total.	Cured.	Relieved.	Discharged.	Died.
		Males.	Females.					
121	97	37	16	271	230	26	11	4

The total number of admissions into the institution during the year 1915 was 607 against 606 during the year previous to it.

Of these there were 11 children admitted into the first class, 48 in the intermediate, 64 into the second class and 45 into the third class, making a total of 168 children, against 9, 31, 62 and 19 respectively admitted during the year 1914.

From the above figures it will appear that there has been a slight increase of residents in the intermediate and third classes and fall in number in the first and second classes during the year 1915.

Though the total number of admissions during the years 1914 and 1915 is almost the same, the total receipts from all classes have considerably increased owing to the increase of rates which came into force from the beginning of the year 1915.

The number of patients treated in 1915 was 271 against 183 in the year 1914. The Hospital was full throughout the period it was open during the year under report.

The daily average number of residents for the whole year works out at 31, but for the period the Sanitarium was open it was 47 as compared with 10 and 16 respectively during the year 1914.

The average stay of each resident was 19 days during the year 1915 as against 3 days in 1914.

The localities from which the people were admitted are, as usual, Calcutta heading the list and Darjeeling coming the next. It is interesting to note that persons from a very long distance such as Allahabad, Assam, Bombay, Colombo, Delhi, Central Provinces, Lucknow, Madras, Sambulpur, Simla, Shillong and Vizagapatam were admitted into this institution for treatment or change. There were few complaints regarding food and management and such complaints were immediately dealt with and the residents generally expressed satisfaction with the arrangements.

6. The free beds in this institution were occupied by 18 patients against 15 in the year 1914.

Four deserving were treated in the Superintendent's free bed against 7 during the year 1914.

Ten patients were sent up from the Presidency General Hospital for treatment and change in the free beds of that institution against 7 during the year 1914.

Four patients were admitted into the Medical College Hospital free bed during the year 1915 against one during the year previous to it.

Two patients were treated in the John White free bed during the year 1915, and the cost for their treatment was met out of that fund. During the year 1914 five patients were treated in the same free bed.

The Peter West free bed, which is intended for the planters, was not occupied during the year 1915. In the year under report the Binning Memorial Fund met the cost of treatment for two children in this institution. The total amount spent on the free beds was Rs. 882 against Rs. 1,058 in the year 1914.

7. The following subscriptions were received in the year 1915, besides the Government grants of Rs. 12,000 and Rs. 1,500 from the permanent subscribers :—

		Rs.
(1)	Darjeeling Improvement Fund	1,000
(2)	Darjeeling Municipality	1,000
(3)	Manager, Tukvar Co., Ltd.	100
(4)	D. P. Mackenzie, Esq.	250
(5)	Messrs. Mackintosh, Burn & Co.	25
(6)	Messrs. Hamilton & Co.	25
(7)	Messrs. Cooke & Kelvey	25
(8)	Messrs. T. E. Thomson & Co.	25
(9)	Darjeeling Himalayan Railway Co.	100
(10)	Messrs. R. Knight & Sons	25
	Total ...	2,575

8. The rule whereby European Government servants on receipt of Rs. 400 or under can obtain first class accommodation by paying intermediate class rates was taken advantage of in two cases only.

The rule granting a reduction of rates to European assistants in commercial firms, banks, etc., who are annual subscribers was taken advantage of in one case only during the year 1915.

9 (1) There were 4 cases of enteric fever against 2 in 1914. The patients were cured.

(2) There was one case of Kala-Azar treated in the hospital. The patient came from Calcutta and was discharged after 24 days, being much relieved.

(3) Thirty-six malarial fever cases were treated in 1915 against 14 during the year previous to it. The patients all recovered except 2 who went down to the plains before being thoroughly cured.

(4) Two pneumonia cases were treated during the year under report in the hospital. Both were cured.

(5) One case of appendicitis was treated in the hospital. The patient was cured after operation.

(6) One case of cholecystostomy was treated in the hospital. The patient, who was an old gentleman, died after operation from suppression of urine.

(7) Eight normal and 6 abnormal labour cases were treated in the hospital. The patients were all cured.

10. Forty-seven operations were performed in 1915 against the same number in 1914. Of these 10 were selected operations and 9 other important operations. Twenty-six operations were performed by me. The other 21 minor operations were performed by Military Assistant Surgeon H. L. O. Fleming.

11 There altogether 4 deaths in 1915 against 6 during the year 1914. The cases were—

(1)	Hepatic abscess with gallstones ...	1
(2)	Carcinoma of the caecum ...	1
(3)	Carcinoma of the liver ...	1
(4)	Acute bronchitis ...	1

12. *Income and expenditure.—Income.*—(*a*) Owing to the revision of rates of the different classes there has been an increase of receipts in all classes except the intermediate class, which shows a deficit of Rs. 454. It was due to the fact that residents in the intermediate class mostly paid the decreased rate at Rs. 6-8 per day, the similar rate charged to this class in 1914 for their admission into the institution with medical certificates or accompanying the patients as relatives and occupying the same room, *vice* Rule 15 (*a*). The second cause was that the average stay of the patients in this class was comparatively shorter than in the previous year.

(*b*) The decrease in the receipts for operations was due to the fact that in the revised rules the charge for operations was decreased; on the other hand, the charges for medical attendance in the different classes were increased and a new charge for general nursing in the hospital was introduced. The deficit of Rs. 576 in operation fees is sufficiently compensated by the increase of receipts against "Medical attendance" and "Nursing fees."

(*c*) During the year under report, on the representation of the Committee, the Municipal Commissioners of Darjeeling increased their subscription to the hospital from Rs. 150 to Rs. 1,000, and the Deputy Commissioner of Darjeeling obtained the sanction of Government for the payment of Rs. 1,000 annually to the hospital attached to the Eden Sanitarium from the Darjeeling Improvement Fund.

(*d*) The Terai Planters' Medical Association sent Rs. 206 during the year under report as donation to the hospital.

Expenditure.—It will be noticed with interest the remarkable decrease of expenditure under almost every head of the account.

(1) Owing to the financial position at the end of the year 1914, the Civil Surgeon of Darjeeling did not draw allowance from the Sanitarium during the cold weather months for a certain period, so there has been a decrease of expenditure by Rs. 124 against the head "Civil Surgeon's allowance."

(2) The remarkable decrease was against "diet expenses" by Rs. 4,100 during the year under report, with practically the same number of admissions and a larger daily average number of residents.

(3) *Repair and Construction.*—Beyond the ordinary repairs to the buildings carried on by the Public Works Department no other improvements were carried out, except the improvement to the drain which carries flushings from the servants' latrine. This drain was considered insanitary, and according to the suggestion of the Municipality, Raniganj tiles were put on.

(4) The increase of expenditure against "Medical Stores" was due to the fact that owing to the outbreak of war the price of medicines had gone up considerably and also to the fact that a larger number of patients were treated in the Hospital as compared with the year 1914

(5) *Rates and Taxes.*—The decrease under this head by Rs. 268-9-9 requires explanation. Under Bengal Government, Public Works Department, letter No. 653A., dated 26th January 1914, the holding tax of the buildings, which are borne in the books of the Public Works Department, was paid by that Department. The Sanitarium and Hospital buildings being Government buildings and borne in the books of the Public Works Department the Committee were relieved from the payment of the owner's share of the Municipal tax from the beginning of year 1915.

(6) The decrease of Rs. 343 against "Establishment" charges during the year 1915 was due to the strict enforcement of rule 29. The work of this institution was carried on with a smaller staff and a few extra men were engaged during the year 1915 at the time of rush of people. The residents failing to bring up a servant to attend at their table were charged for the attendance of the Sanitarium servants at their table.

(7) The endowment of Rs. 6,150 received from Mr. F. M. Leslie for the establishment of a Children's Cot, called "Binning Memorial Cot" for children was included in the accounts of the Eden Sanitarium during the year 1915 and two children were treated free out of the interest received from the investment.

(8) Reviewing the position generally of this institution during the year 1915, it may be stated that the income had considerably increased, namely, by Rs. 14,472, by the revision of rules and following them strictly, and the expenditure had been greatly reduced, namely by Rs. 6,678, with the same number of admissons of residents and staff, the result of strict supervision and control. The result has been a net profit of Rs. 4,648-2-9, deducting depreciations of Rs. 2,407-8-7 on furniture.

I note that never since the establishment of the Hospital attached to the Sanitarium has there been an annual profit in its working to the extent of Rs. 4,648.

13. The daily average cost of diet for residents not including the staff was Rs. 1-9-4 as compared with Rs. 2-0-7 in the year 1914.

14. The accounts were audited by Messrs. Viney and Thurston, Chartered Accountants of Calcutta.

15. *General Remarks.*—(i) In spite of insertion of rule 26 (*b*) the cost for the entertainment of six nurses in the Hospital was not recovered by the fees they earned.

The total amount received on account of nurses' fees was Rs. 2,556 during the year 1915, but the expenditure on account of their salary, travelling allowance and commission was Rs. 3,861-8-3. Hence the excess expenditure is Rs. 1,305-8-3 not covered by the income during the year 1915. I may note here that hitherto the expenditure incurred for the nurses had never been covered by the fees they earned and during the past years the nurses' expenditure was a great drain on the finances of this institution, which has no doubt considerably improved by the introduction of the above rule.

(ii) The Government of Bengal in their letter No. 330-Medl., dated 16th February 1915, sanctioned an additional grant of Rs. 12,000 from Provincial Revenues to the Managing Committee of this institution for the payment of outstanding liabilities of this institution which was thankfully accepted by the Committee.

(iii) Military Assistant Surgeon H. L. O. Fleming was the Resident Medical Officer of this institution from 5th March to 23rd November 1915.

(iv) Miss L. Cox was appointed Housekeeper of this institution from 16th March 1915 and worked till the end of the year.

(v) Babu Sidheswar Dey was employed as the Accountant of this institution throughout the year 1915.

(vi) The nursing arrangements and linen as usual were under the supervision of two of the Clewer Sisters from Calcutta.

(vii) Sister Hope took charge of the Library attached to the Eden Sanitarium in addition to the linen room and has made certain improvements to the Library by purchasing new books.

(viii) The Sanitarium was officially visited during the year 1915 by the following :—

(*a*) Members of the Committee who acted as House Visitors :—

(*a*) Mr. R. C. Hodgson.

(*b*) Mr. E. A. Wernicke.

(*c*) Hon'ble Mr. J. Donald, M.A., LC.S.

(*d*) Rev. A. C. Ridsdale.

(*e*) Dr. C. E. B. Seal.

(*b*) Her Excellency Lady Carmichael accompanied by the Hon'ble Surgeon-General W. R. Edwards visited this institution on the 10th of June 1916, and was pleased with the arrangements. Her Excellency remarked that "it might be better to have a little more Hospital accommodation and less residential."

I desire to again press on the attention of Government the urgency of an increase to the Hospital accommodation. This matter was mentioned in the annual report for last year. The accommodation is inadequate and patients have to be constantly removed to the Sanitarium though still unfit, in order to make room for more urgent cases. The present Hospital was built by Government in the year 1900 at a cost of about Rs. 20,000 and was opened on the 8th May 1901 by His Honour the then Lieutenant-Governor Sir John Woodburn. As Darjeeling is constantly growing and this is the only Hospital for the European residents in the headquarters of the District, it is hoped the Government will consider the question of its extension in better days, if it is not possible at present owing to the war in Europe.

(ix) The Committee held eleven meetings during the year 1915 to discuss various subjects in the interest of this institution. The most important subject dealt with was the revision of the Rules, which was approved by Government in their letter No. 28T—Medl., dated 19th May 1915.

The Government was also pleased to meet the charge on account of salary of the Military Assistant Surgeon attached to the Sanitarium during the period the institution is officially closed. This is done by transferring the Military Assistant Surgeon to a Calcutta Hospital after the Sanitarium is closed, and it has relieved the Committee of an expenditure to the extent of Rs. 1,300 on account of pay and his contribution.

(x) In spite of the raising of the rates in the different classes this institution was reasonably or actually full throughout the period it was open during the year under report and did not lose its popularity.

(xi) Owing to the present financial state of Government on account of the war, the following improvement, though suggested by the House Visitors of this institution, was not carried out :—

The "Sanitary" arrangements for the 3rd class rooms, particularly those for women. These continue to be insanitary and hopelessly inadequate.

(xii) Rev. H. C. Duncan, M.A., one of the members of the Committee, went home on leave towards the close of the year 1915 and resigned his membership and suggested the appointment of Rev. J. P. Reid, M.A., the present Minister of the Church of Scotland. The Committee at least te m porarily have lost his valuable services rendered to this institution.

(xiii) During the year under report I noticed from the bills for lighting and excess water, received from the Municipality, that the expenditure under these heads was going up. On testing the electric installation it was ascertained that the wires were leaking in several places and it was decided to put a separate meter for measuring the consumption of water in this institution. An estimate was asked for and received from the Municipality for putting up a meter for measuring water at about Rs. 500. These matters were kept pending for consideration during the next year along with the financial position of the institution.

(xiv) It was necessary to serve notices under rule 14 (*b*) to certain inmates who did not follow the rules of this institution or refused to follow them. The action appears to have been useful.

ALTERATION OF IMPROVEMENT SCHEME No. I (SURTIBAGAN).

Notice under Section 50 of Bengal Act V of 1911.

NOTICE is hereby given that the Board of Trustees for the Improvement of Calcutta proposes to alter the above scheme so as to make Tarachand Dutt Street 84 feet wide instead of 45 feet wide for a length of about 440 feet east of Chitpore Road. This will involve the acquisition of the following additional properties :—

Chitpore Road, Lower ...	63, 64, 64/1, 64/2, 65, 65/7, 65/8.
Ram Prosad Shah Lane ...	6, 7, 9, 10, 23/1, 24, 25, 27.
Tarachand Dutt Street ...	45, 48 and 49.

A plan of the proposed alteration and a copy of this notice may be seen at the offices of the Trust, 5, Clive Street, during office hours.

The alteration is made in consequence of the Improvement Trust having approved of a plan of a Proposed Public Street 84 feet wide running from a point south of the Roman Catholic Cathedral to Chitpore Road opposite

Tarachand Dutt Street. The branch road in Improvement Scheme No. VII known as the Chitpore Spur has also been re-aligned so as to meet Harrison Road opposite the road under construction in Improvement Scheme No. IA. The road in Improvement Scheme No. IA will also be widened to 84 feet; the re-alignment proposed not only does less damage to property and avoids interference with the Jaina Temple at No. 82, Chitpore Road, but also avoids adding further congestion to the traffic at the crossing of Chitpore Road and Harrison Road, which would have resulted if the Chitpore Spur in Improvement Scheme No. VII and the road shewn in the original plan of the Proposed Public Street No. IV had been adopted.

The estimated cost of the proposed alteration is—

Land Gross	...	4¾ lakhs.
Recovery	...	4½ ,,
Net	...	¼ lakh.

The Engineering estimate is Rs 55,847, being Rs. 26,867 in excess of the original estimate already sanctioned.

C. H. BOMPAS, *Chairman.*

1st September 1916.

ALTERATION OF IMPROVEMENT SCHEME No. IA.

Notice under Section 50 of Bengal Act V of 1911.

NOTICE is hereby given that the Board of Trustees for the Improvement of Calcutta proposes to alter the above Scheme so as to make the Road 84 feet wide instead of 40 feet wide. This will involve the acquisition of the following additional properties :—

Kasi Nath Mullick Lane.

Nos. 5, 5/1, 17, 17/1, 17/1/1 (portion), 18, 19, and 20, 20/1, 20/2, 20/3, 20/4 and 21 (portion).

A plan of the proposed alteration and a copy of this notice may be seen at the offices of the Trust, 5, Clive Street, during office hours.

The alteration is made in consequence of the Improvement Trust having approved of a plan of a Proposed Public Street 84 feet wide running from a point south of the Roman Catholic Cathedral to Chitpore Road opposite Tarachand Dutt Street. The Branch Road in Improvement Scheme No. VII known as the Chitpore Spur has also been re-aligned so as to meet Harrison Road opposite the road under construction in Improvement Scheme No. IA. The road in Improvement Scheme No. IA will also be widened to 84 feet; the re-alignment proposed not only does less damage to property and avoids interference with the Jaina Temple at No. 82, Chitpore Road, but also avoids adding further congestion to the traffic at the crossing of Chitpore Road and Harrison Road, which would have resulted if the Chitpore Spur in Improvement Scheme No. VII and the road shewn in the original plan of the Proposed Public Street No IV had been adopted.

The estimated cost of acquiring the additional land is—

Gross	...	6¼ lakhs.
Net	...	¼ lakh.

The Engineering estimates amount to Rs. 32,655 against Rs. 11,179, the estimated cost of the narrower Road.
